

Information Request DPU 1-5

Request:

Local Gas Distribution Companies refer to Attachment B, Table 2. Please provide the information specified in columns B through H, and columns M through N (see instructions provided at the bottom of the worksheet).

Response:

Please see Attachment DPU 1-5 for the requested information. Please note that Columns M through N are zero because Boston Gas Company does not provide AMP credits towards outstanding balances owed to competitive suppliers. The information provided in Columns B through E reflects the total the data of Boston Gas Company and the former Colonial Gas Company.

Additionally, in calculating the supply costs that would have been billed to low-income customers if all customers were on default service rate (Column I), the Company is not reflecting proration of Gas Adjustment Factor ("GAF") rate changes, which is inherent in Columns D and E for months encompassing a GAF rate change. The impact of not incorporating the proration of rate changes in the calculation is insignificant.
