Mark Marini, Secretary
Department of Public Utilities
One South Station, Fifth Floor
Boston, Mass. 02110

RE: D.P.U. 20-75, Investigation by the Department of Public Utilities On Its Own Motion Into Electric Distribution Companies' (1) Distributed Energy Resource Planning and (2) Assignment and Recovery of Costs for the Interconnection of Distributed Generation.

Dear Secretary Marini,

Please accept this letter as the Comment in the above-captioned proceeding, filed pursuant to the Department's Order dated October 22, 2020 in D.P.U. 20-75, of the Low-Income Weatherization and Fuel Assistance Program Network (the Network), and reserving the right of Reply.

At this time the Network points out that cost allocations to ratepayers should be guided by G.L. c. 164, sec. 141, "Where the scale of on-site generation would have an impact on affordability for low-income customers, a fully compensating adjustment shall be made to the low-income rate discount."

Please let me know if there are questions about this filing.

Thank you.

Sincerely,
