Department's First Set Information Requests

EDC 1-3:

Based on historical data, estimate the threshold \$/kW at or below which interconnecting customers have agreed to pay to interconnect. Provide data by group, where possible.

Response:

The Company is not provided any reason if an applicant cancels, therefore it is difficult to estimate a limit \$/kW threshold at or below which Interconnecting Customer would agree to pay to interconnect. However, Interconnecting Customers have historically agreed to pay and have interconnected with system modification costs up to \$750 / kW
