

**Commonwealth of Massachusetts
Department of Public Utilities
Fitchburg Gas and Electric Light Company d/b/a Unitil
Docket No: D.P.U. 20-75**

Department's Second Set of Information Requests

EDC 2-6 (Unitil):

Refer to National Grid's response to EDC-1, at 8-9. Please provide the Unitil's perspective on National Grid's proposal to allocate up to 40 percent of the DG interconnection costs as system benefits to all customers

Response:

Fitchburg Gas and Electric Light Company d/b/a Unitil ("Unitil" or the "Company") generally agrees with the benefits identified by National Grid in its response to EDC-1, though the Company notes that certain benefits are transmission-specific. Unitil has not, at this time, conducted an analysis of the percentage of DG interconnection costs that should be allocated as system benefits to all customers on its system.
