EFSB Hearing re Eversource/East Boston

I write in strong opposition to Eversource's appeal to ignore all pending permit processes while there are no justifiable grounds for it. To approve their request is to deny citizens the right they have to be heard in all legal venues. It quite frankly is criminal in nature to pull the plug after years of following procedures and wasting everyone's time and commitment when the end result could be as simple as ending every legal channel to weigh in on.

How does this give any confidence to impacted citizens that this same circumvention won't happen in future matters. It quite frankly is a despicable maneuver.
