My name is Sonja Tengblad and I have lived in East Boston since 2013. My perspective is from a community organizer of the Mothers Out Front East Boston air quality campaign, and I have seen the layers and layers upon environmental INjustice that community members have to live with. We do not need this substation in one of our local parks in a flood zone, we need to put it on Logan Airport property where most of the demand is coming from. We are so tired of dealing with airport expansion in so many different ways and guises. Do not place this substation in our neighborhood, in our kids' parks, as yet another reminder of how profit is always prioritized over people. The entire process hasn't put people and residents at the forefront and it's time to.

Thank you,
Sonja Tengblad
