Siting Board Staff Proposed Amendments to the Tentative Decision
December 14, 2022

Page	Line	Change
vi	16	Add Roadmap Act to Table of Abbreviations
8	6	Insert after “written comments from”: “Eversource. The Siting Board also received written comments from members of the public.”
22	10	Add new footnote: “The Siting Board notes that the ISO-NE completed its review of Eversource and Park City Wind’s request and rejected the request for the allocation of the costs of the 115-345 kV Upgrade on a regional basis. <u>See</u> https://www.iso-ne.com/static-assets/documents/2022/09/notice_to_pac_on_eversource_pcw_regionalization_request.pdf ”
26	9	Replace “180” with “120”
26	11	After “at a minimum”, add “environmental impacts,”
43	6	Insert a new footnote: “Article 97 requires that certain land or easements taken or acquired for natural resource purposes shall not be used for other purposes unless the Massachusetts Legislature approves the change by a two-thirds vote. The Project would require Article 97 review on a parcel of municipal conservation land crossed by ROW 342 in Barnstable because the existing easement or property rights do not allow for construction or operation of additional lines (<u>see</u> Exh. EV-1, at 3-8, n 16).”
59	16	Insert new footnote: “The Project required Article 97 approval. Article 97 requires that certain land or easements taken or acquired for natural resource purposes shall not be used for other purposes unless the Massachusetts Legislature approves the change by a two-thirds vote. The Project required Article 97 review on a parcel of municipal conservation land crossed by ROW 342 in Barnstable because the existing easement or property rights do not allow for construction or operation of additional lines. The Project received Article 97 approval by a two-thirds vote of the Legislature on July 31, 2020 (<u>see</u> Exh. EFSB-G-4(1)).”
63	46	Insert a new footnote at the bottom of the page: “In a comment letter to MEPA on the Company’s ENF filing, the Cape Cod Commission stated that the environmental impacts of the Project would be minimized and mitigated as described in the ENF and with the addition of measures expected to be imposed during permitting. The Company also noted that the proposed Project, including related substation expansion work in West Barnstable, did not exceed a mandatory DRI review threshold requiring further review by the Cape Cod Commission (Exhs. EFSB-G-1; EFSB-G-4).”
66	21	After “e.g.,” add “vegetation removal and site preparation,”
